**PICKS OF THE WEEK**

**Read of the Week**

[Arcadia](#) by author Lauren Groff is an astonishing novel, both in ambition and achievement, filled with revelations that appear inevitable in retrospect, amid the cycle of life and death.

### Movie of the Week

*A Christmas Story*, directed by Bob Clark, is a 1983 American Christmas comedy film based on the short stories and semi-fictional anecdotes of author and raconteur Jean Shepherd, based on his book *In God We Trust, All Others Pay Cash*, with some elements derived from Wanda Hickey's *Night of Golden Memories*. The film has since become a holiday classic and is shown numerous times on television during the Christmas season.

### Album of the Week

*Kaputt* is the ninth LP from Canadian indie rock band [Destroyer](#), and features tracks "Chinatown", "Poor in Love", "Downtown", and "Song for America".

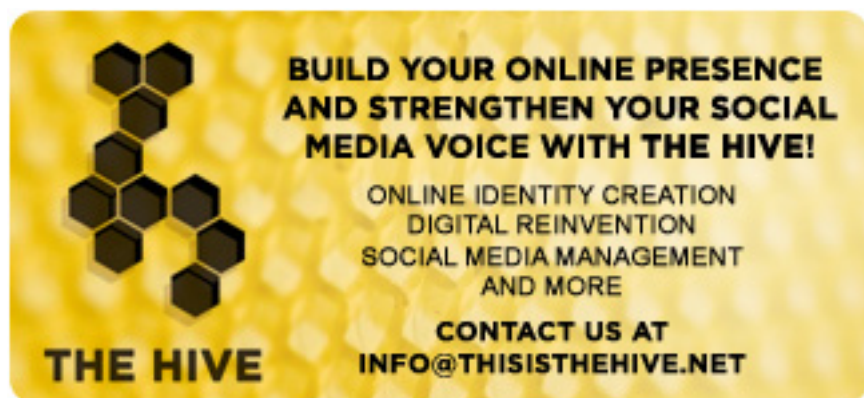

### Website of the Week

In some Asian countries, moon bears are kept in small cages for up to 30 years, and have their bile extracted through catheters, needles and open wounds. More than 14,000 bears are kept in cages on farms throughout China and Vietnam. Starved, dehydrated and riddled with ailments, this is a living hell for the bears. The bile is used as a form of medicine. This barbaric practice is called bear farming. [Animals Asia](#) has been working in China and Vietnam to end bear farming since 1998.
